

SPE 2016 Thermal Well Integrity and Design Symposium, Regional Awards

HOUSTON, TEXAS, January 10, 2017 — Delta Screens & Filtration today announced that Uliana Romanova PhD, Business Development, Canada Region has received the Society of Petroleum Engineers (“SPE”) Canada Regional Formation Evaluation Award. Uliana was honored at the on November 30, 2016 at the Banff Springs Hotel, Banff, AB Canada. SPE’s regional awards recognize members who’ve contributed exceptional service and leadership to the society, as well as those who’ve made major professional contributions to their technical disciplines at the regional level.

Dr. Uliana Romanova has over 20 years of experience in the area of technology research and development, both in academia and industry. Delta are grateful for her technical expertise in reservoir characterization, recovery methods, and sand control, and congratulate her on this well-earned award.

The area of Dr. Romanova’s expertise is heavy oil and oil sands and formation damage, in particular sand control for thermal production operations. She is an author and co-author of over 40 technical publications. She made numerous presentations at industry technical conferences and workshops in Canada, USA, Europe, Asia and the Middle East. She serves on a variety of SPE technical committees, including SPE Canada Heavy Oil Technical Conference and SPE Thermal Well Design and Integrity Symposium, and the Board of SPE Canada Educational Foundation.

Prior to joining Delta Screens Uliana worked as a Post-Doctoral Fellow at Institut Francais du Petrole in Paris, France, a Research Associate at the University of Calgary, Calgary, and a Senior Analyst at RPS Energy (formerly APA Petroleum Engineering), and Weatherford, Canada.
